art in science award requirements

The art in science award 2012, with a prize of €5,000 will be presented for the best scientific manuscript in the field of dynamic load distribution in biomechanics. The paper must be entirely original, not published at the time of the meeting in any journal nor submitted for publication to any journal or book. The paper must describe a scientific study including dynamic load distribution in biomechanics. Deadline for the submission of abstracts is April 16, 2012.

Six of these abstracts will be nominated for the art in science award by May 16, 2012. The nominated authors will be requested to send a full length (25 pages maximum, double spaced) paper by June 15, 2012, and will present the paper at the meeting in an approximately 30 minute talk. The review of the papers will be conducted by a prominent panel of experts. The art in science award will be presented to the winner at the banquet.

The general abstract instructions to authors may be found in the Authors section at www.elsevier.com/locate/clinbiomech.

The art in science award 2010 was presented in Providence, Rhode Island, to Josh Slane, University of Wisconsin-Madison, Wisconsin, by Michael Morlock, Scientific Chair

Deydre Teyhen, U.S. Army-Baylor University, Texas, the winner of the presentation award 2010, and Peter Seitz, CEO novel

Submission instructions

Abstracts for oral and poster presentations in the field of dynamic load distribution in biomechanics must be submitted by April 16, 2012. Participants will be informed of presentation acceptance by May 16, 2012. Awards for the Best Poster and Best Oral Presentation will also be presented and each award recipient will receive €1,000.
